Dear Milen:

I have written Jerry Persons a personal letter alreading our hope that something can be done at the carrent session of Congress to permit reciprocal attablishment of diplomatic radio facilities. This ratter has become all the more acute in view of pressure from the United Arab Republic as reported in a recent telegram from Ray Mare in Cairo.

I thought you would want to know about my letter to Conoral Persons. Needless to say, it would be most helpful if you could also push this project.

With warm regards,

Sincerely yours,

Robert Murphy
